ahn®  
biotechnologie GmbH

For over eighteen years **AHN Biotechnologie GmbH** has been an OEM manufacturer of consumables for many top life science brands and distribution companies in Germany and worldwide. Located in Nordhausen, Germany, our state of the art production facility meets and exceeds the strict requirements of the most well-known brands, we are supplying for.

Now, it is time for AHN Biotechnologie GmbH to introduce its own brand and provide value directly to scientists worldwide. Besides our current products we are strengthening our brand by introducing a comprehensive range of consumables, liquid handling instruments and laboratory equipment. Our unique combination of flexibility, innovation and high level manufacturing automation will ensure laboratory products fulfilling the needs of worldwide customers and complying with the quality they desire.

Our know-how within pipette tips' production has now been strengthened by the implementation of newly developed Swiss molds, leading to the launch of new tips' lines, matching the strict standards of modern lab industry. Our goal is to offer the market's best value for money on pipette tips and other AHN products.

To obtain the most optimal performance of our consumables, we have been continuously working on the improvement of our instruments. The new **pipet4u® pro pipettes** with improved accuracy and greater user-friendliness along with the brand new **AHN myDpette bottle top dispensers**, convince by simplicity of use combined with the highest quality of workmanship. With our **pipet4u® Revolution** we offer an affordable range of electronic pipettes. Profit from the benefits of electronic dispensing, such as improved precision and multi dispensing function.

The **AHN myLab® products** are being brought to market with one thing in mind: YOU. A wide range of centrifuges, stirrers and shakers are available in a variety of sizes, multiple accessories and more features than most of the competitors.

We invite you to explore the new AHN and discover a better way to source your laboratory equipment and consumables.

### AHN myTip® Standard Tips

**Universal fit and tip ejection** - improved cone geometry securing an optimal fit

**Quick and easy volume check** - graduation marks on tip at standard volumes

**Precise pipetting without loss of sample** - conical tip opening prevents drop formation at the end of the tip

**High quality material** - tips made of autoclavable, non-wettable, virgin polypropylene

**Maintain sample integrity** - sterile version available (beta irradiation)

**Sterile handling** - tips are autoclavable (121 °C / 20 min)

**Versions** - available in bags and rack boxes

**Compatibility list available on request**

### AHN myTip® MaT Macro Tips

**Optimized cone geometry** - ensuring perfect fit on the defined pipette

**Precision without loss of sample** - conical tip opening to avoid drop formation

**Elimination of sample contamination** - tips made of autoclavable, non-wettable, virgin polypropylene material

**Maintain sample integrity** - sterile version available (beta irradiation)

**Autoclavable** - 121 °C / 20 min

**Versions** - available in bags

**Compatibility list available on request**

autoclavable  
121°C  
20 min

**No sample contamination** - filters are made of virgin high quality hydrophobic polyethylene without additives

**No pipette contamination** - filters block aerosols and liquids (vaporous, radioactive, biohazardous or corrosive samples) through micropore filter technology (MPS technology, filter pore size 5-40 µm)

**Universal fit and tip ejection** - optimized cone geometry for a secure fit

**Quick and easy volume check** - graduation marks on tip at standard volumes

**Precise pipetting without loss of sample** - conical tip opening prevents drop formation at the end of the tip

**Elimination of sample contamination** - tips made of autoclavable, non-wettable, virgin polypropylene

**Maintain sample integrity** - sterile version available (beta irradiation)

**Sterile handling** - filter tips are autoclavable (121 °C / 20 min)

**Versions** - available in bags and rack boxes

# AHN myTube® PCR

PCR Tubes 0.1 mL | 0.2 mL

12

**Elimination of contamination and loss of sample** - high quality raw material meets standards of purity and is highly resistant to extreme mechanical strain and has excellent chemical resistance

**Improved sample recovery** - the V-shape bottom guarantees easier sample recovery

**Reduced cycle time and optimal heat transfer** - guaranteed by extra thin, uniform wall thickness of the tube

**Low-binding** - reducing the adhesion of proteins to the very minimum

**Optical measurement** - high transparency of PCR tubes allows the use for applications where the optical qPCR signal comes from the bottom of the tubes

#### Centrifuge specifications:

up to 18.000 x g - fixed-angle rotor

up to 500 x g - swing out rotor

**Effortless and secure working** - ergonomic flat cap design allows opening and closing with one hand

**Sterile handling** - each lot is manufactured under strict sterile conditions

**Versions** - available in two sizes 0.1 mL and 0.2 mL

# AHN myTube® PCR

PCR Strips 8 x 0.1 mL | 8 x 0.2 mL

13

**Optical measurement** - high transparency of PCR strips allows the use for applications where the optical qPCR signal comes from the bottom of the tubes

**Reduced cycle time and optimal heat transfer** - guaranteed by extra thin, uniform wall thickness of tube

**Low-binding** - reducing the adhesion of proteins to the very minimum

**Sterile handling** - each lot is manufactured under strict sterile conditions

**Versions** - available as 0.1 and 0.2 mL PCR strip tubes, without caps or with attached caps / both 0.1 and 0.2 mL PCR strip tubes, without caps can be covered by the strip of 8 caps (cat. no. 3-035-01-0)

**Compatibility** - the 0.1 mL strips are especially recommended for fast thermocyclers requiring low profile tubes and the 0.2 mL strips for the standard thermocyclers requiring regular profile tubes / compatibility chart available on request

# AHN myPlate® PCR

PCR Plates 96 x 0.1 mL | 96 x 0.2 mL

14

**Non-skirted** - for optimal fit in various thermocyclers / can be easily cut into 16, 24, 32 or 48-well pieces

**Optical measurement** - high transparency of PCR plates allows the use for applications where the optical qPCR signal comes from the bottom of the plate

**Improved sample recovery** - the V-shape bottom guarantees easier sample recovery

**Low-binding** - reducing the adhesion of proteins to the very minimum

**Sterile handling** - each lot is manufactured under strict sterile conditions

**Sealable** - using optical disposable adhesive for secure closure of PCR plate

**Versions** - available as low profile PCR plates with 0.1 mL wells and as regular profile plates with 0.2 mL well capacity

**Compatibility chart available on request**

Micro Tubes 0.5 mL | 1.5 mL | 2.0 mL

15

**Effortless and secure handling** - ergonomic cap design with hinge orientation nibs (1.5 mL/2.0 mL) and safe click lock allows an easy and secure opening and closing of the tube / bottom and cap have no sharp points, gloves will not be damaged / cap of the tube is puncturable

**Quick and simple volume check** - tubes are equipped with precise graduation marks / 1.5 mL tube with 0.2 mL extra space and 0.5 mL tube with 0.1 mL extra space for freezing/boiling purpose

**Easy sample identification** - frosted marking area for easy labeling

**Optical measurement and unsurpassed clarity**

**Elimination of contamination and loss of sample** - high quality raw material meets standards of purity and is highly resistant to mechanical strain and has an excellent chemical resistance

**Centrifuge specifications:**

up to 20.000 x g - 0.5 mL tube

up to 25.000 x g - 1.5 mL/2.0 mL tube

**Maintain sample integrity** - sterile version available

**Sterile handling** - micro tubes are autoclavable (opened 121°C/ 15 min)

# AHN myTube® CT

Centrifuge Tubes 15 mL | 50 mL

16

**Elimination of contamination of sample** - high quality raw material meets standards of purity

**Centrifuge Tube with screw flat cap**

**Easy sample identification** - large writing area on tube

**Quick and simple volume check** - precise graduation marks

**No loss of sample** - tube resists high centrifugal force and temperature variations (-80 °C to +121 °C)

**Centrifuge specifications:**

up to 17.000 x g - 15 mL centrifuge tube

up to 20.000 x g - 50 mL centrifuge tube

up to 7.000 x g - 50 mL centrifuge tube (self-standing)

**Comfortable handling** - the 3/4 turn closure enabling one handed operation by opening and tightening

**Maintain sample integrity** - sterile version available (by gamma irradiation)

**Sterile handling** - centrifuge tubes are autoclavable (opened 121°C / 15 min)

**Versions** - 50 mL tubes are available as non-skirted or self-standing (skirted)

Serological Pipettes  
1.0 mL - 25 mL

**Quick volume check** - glass-clear polystyrene (PS) with graduation marks

**Maintain sample integrity** - sterile, individually packed

**Convenient identification** - colour-coded cotton-wool plug, standard colour code

**Accurate, minimal residual wetting** - weldless one piece pipette

**Additional capacity** - availability of negative graduation

**Display of dispensed and residual volumes** - 5, 10 and 25 mL pipettes provide reverse double scales

Cryo Tubes 1.2 mL | 1.8 mL | 4.0 mL

18

**Easy sample identification** - unique barcode printing directly on tube / large writing surface on tube

**Secure long term storage and preservation** - tube can be stored up to -196 °C

**No loss of sample** - tested to specific pressure to guarantee no leaking from tube

**No contamination during storage** - o-ring injected directly into cap to minimize risk of leaking

**Quick and simple volume check** - clear printed graduation marks

**Preserved viability of samples** - manufactured from proven non-toxic materials

**Maintain sample integrity** - sterilized by beta irradiation

**Sterile handling** - cryo tube is autoclavable (120 °C / 20 min)

**Colour coding** - capdisks available in six different colours allow an easy identification of the sample by snap into screw-top caps

**Self standing / external thread**

autoclavable  
120°C  
20 min

## Cryobox 81 Places

**Effortless and secure operation** - box can be easily opened and closed with one hand / drain openings on bottom for liquid nitrogen storage

**Secure long term storage and preservation** - polypropylene (PP) box can be stored between -90 °C and +121 °C and polycarbonate (PC) between -196 °C and +121 °C

**Storage of light sensitive samples** - PP boxes are available with bottom and lid in black

**Easy sample identification** - removable grid insert with numeric coding on each position

**Product details** - 9 x 9 matrix / 81 places / dimensions PP boxes: 133 mm (W) x 133 mm (D) x 52 mm (H) / dimensions PC boxes: 132 mm (W) x 132 mm (D) x 52 mm (H) and 132 mm (W) x 132 mm (D) x 94 mm (H)

**Sterile handling** - cryoboxes are autoclavable (opened 121°C / 20 min)

Filtration Systems

20

## AHN myTube® SC Spin Column System

**Spin column system** - consisting of **0.8 mL filter tube** (round bottom design) equipped with corresponding filter (see filter options below) and **1.5 mL or 2.0 mL receiver tube**

**Elimination of contamination and loss of sample** - high quality raw material meets standards of purity and is highly resistant to extreme mechanical strain and has an excellent chemical resistance

### Centrifuge specifications:

up to 25.000 x g - fixed-angle rotor  
up to 30.000 x g - swing out rotor

## AHN myPlate® FP Microfilterplate System

**Microfilterplate** - 8x12 matrix, 96 individual drip directors, 1.0 mL capacity, in accordance with SBS-Standard, equipped with corresponding filter (see filter options below) / **receiver plate** and **vacuum manifold** are separately available

**Elimination of risk of sample contamination** - manufactured from absolutely clear high-quality virgin polystyrene

Filter options	SC	FP
<b>Glasfiber (GF) filter characteristics</b> - recommended for the purification of DNA and RNA / prefiltering of dirty solutions / rapid flow rate and high particle loading capacity	■	■
<b>Nylon filter characteristics</b> - recommended for filtering protein-free culture media / recommended for particle removing / hydrophilic / good chemical resistance		■
<b>Cellulose acetate (CA) filter characteristics</b> - very low binding affinity / recommended for applications requiring low protein binding / high flow rates / very low adsorption / hydrophobic	■	■
<b>Regenerated cellulose (RC) filter characteristics</b> - suitable for particle removal from solvents / used to ultraclean solutions / hydrophilic / very good chemical resistance	■	■
<b>Polyethylene (PE) filter characteristics</b> - suitable for particle-removing coarse filtration / can be used both as a prefilter or as support filter in combination with other filters / hydrophobic / very good chemical resistance	■	■
<b>Polyvinylidene fluoride (PVDF) filter characteristics</b> - used in general filtration and sample preparation applications / hydrophilic / low binding affinity / broad chemical and temperature resistance / high flow rates	■	■

CE IVD

2  
YEARS  
WARRANTY

autoclavable  
121°C  
15 min

**Comfortable and effortless pipetting** - new user-friendly handle design with soft grip for comfortable operation to prevent hand stress / light weight / low plunger force minimizes RSI (repetitive strain injury)

**Easy identification** - use the easily attachable colour-coded drops to identify your pipette according to your requirements

**Durability** - new tip cone demonstrates high mechanical strength and high resistance against chemicals

**Calibration stability** - even after multiple autoclaving no recalibration is required

**Accurate and reliable pipetting** - reverse pipetting option for accurate and precise aspirating and dispensing of viscous liquids / innovative soft grip prevents transfer of heat to internal components, ensuring accurate pipette operation / lock counter mechanism of variable volume pipettes prevents volume changes while pipetting / blow out system allows last drop dispensing

**Sterile handling** - fully autoclavable pipette (by steam at 121°C / 15 min)

**Easy and quick maintenance and adjustment** - with the included disassembly and calibration tool

**Meets following standards:** DIN EN ISO 8655-1 | DIN EN ISO 8655-2 | DIN EN ISO 8655-6 | EU Directive 98/79/EG

## Electronic Single Channel and Multi Channel Pipettes

26

**Comfortable and effortless pipetting** - ultra bright OLED display for extra clear visibility / ergonomic design for fatigue-free operation / comfortable pipetting dial for easy volume control and low strain pipetting (minimizes RSI - repetitive strain injury)

**Easy handling with one dial** - control of all operating programs with the patented one dial system

**6 different operating programs** - pipetting / dispensing / reverse pipetting / mixing / autocalibration / speed control

**Accurate and reliable pipetting** - SCS-System (speed control system) controls piston movement giving highest precision and accuracy

**Easy self-calibration** - ESM-System (easy self-calibration management system) allows user calibration of the pipette, the user can calibrate their pipette for solutions of different viscosity, the system also controls permanently all functions and indicates errors

**Sterile handling** - autoclavable pipette cone (120 °C / 15 min)

**Meets following standards:** DIN EN ISO 8655-1 | DIN EN ISO 8655-2 | DIN EN ISO 8655-6 | EU Directive 98/79/EG

**Compatibility list available on request**

## Bottle Top Dispenser

**Unique piston mechanism** - cleaning of piston and cylinder without affecting the calibration

**Dual graduation marks** - readability of the volume from both sides

**Springless valve design** - leads to smooth functioning and high chemical resistance

**Eco-friendly** - while discharging the tubes in the re-circulation mode, in fast priming, the reagent is being redirected back into the bottle, eliminating any waste of precious reagents, ensuring safety and savings

**Easy handling** - discharge tube with 360° rotation, makes the bottle label visible all the time / telescoping filling tube compatible with different sizes of reagent bottles / ergonomic grip

**Easy to calibrate** - complies with ISO 8655-5 standard

# AHN myLab® MC-01

Microcentrifuge 6000 rpm

30

**Usage** - separation of particles from suspension or macromolecules from solutions

**Capacity** - 8-place closed rotor for 1.5 mL / 2.0 mL micro tubes

**Maximum Speed** - 6000 rpm / 2000 x g

**Multiple tube options** - adaptors for 0.2 mL / 0.5 mL tubes available

**Unique closed rotor design** - ensures better airflow through low-friction, stability for temperature sensitive sample through low heat generation and ultra-silent and vibration free operation

**Secure operation** - electronic brake for immediate stop on lid opening for increased user safety

**Durability** - robust construction / solid hinge and switch design

**Quick and comfortable operation** - possibility of quick runs by simply closing and opening the lid / digital display

**Small footprint saves valuable bench space** - suitable for use in hoods and cold rooms

**Speed accuracy +/- 100 RPM**

### Cat. No.

7-000-01-0

### Delivery package

- 1 pc. Microcentrifuge 6000 rpm
- 1 pc. 1.5 / 2.0 mL closed rotor
- 1 pc. PCR strip rotor
- 1 pc. Allen wrench
- 8 pcs. Individual adaptor for 0.2 mL tubes
- 8 pcs. Individual adaptor for 0.5 mL tubes
- 1 pc. External power adaptor
- 1 pc. Instruction manual
- 1 pc. Warranty card
- 1 pc. Declaration of conformity

### Specifications

Noise level	< 55 db
Quick spin feature	yes, lid activated on/off
Power consumption	10 W
Dimensions (WxDxH)	162 x 157 x 115 mm

# AHN myLab® MC-02

High Speed Microcentrifuge 15000 rpm

**Usage** - designed for blood centrifugation and other clinical applications

**Capacity** - 12-place closed rotor for 1.5 mL / 2.0 mL micro tubes

**Maximum Speed** - up to 15000 rpm / 15596 x g

**Multiple tube options** - adaptors for 0.2 mL / 0.5 mL tubes available

**Unique closed rotor design** - ensures better airflow through low-friction and stability for temperature sensitive sample through low heat generation

**Increased user safety and comfort** - automatic safety brake system preventing the lid from opening upon operation / imbalance detection / rotor with screw on lid to prevent contamination

**Small footprint** - optimizing bench top space

**Multiple applications** - suitable for use in hoods or cold rooms

**Robust design** - brushless DC motor enables maintenance free and long lasting operation, perfect for extended runs

**Comfortable use** - user-friendly interface / extremely low noise level / large digital display

Clinical Centrifuge 4000 rpm

32

**Usage** - designed for blood centrifugation and other clinical applications

**Multiple tube and rotor options** - 6x15 mL (swing) / 8x15 mL (fixed angle) / 16x10 mL (fixed) / further blood collection tube adaptors available - 9 mL, 6 mL, 4 mL, 3 mL and 2 mL

**Maximum Speed** - up to 4000 rpm / 2270 x g varies per rotor

**Precise operation** - speed interval of 10 rpm starting from 500 rpm

**Memory feature** - can save upto 99 user defined programs (protocols)

**Increased user safety and comfort** - automatic safety brake system preventing the lid from opening upon operation / imbalance detection

**Robust design** - brushless DC motor enables maintenance free and long lasting operation, perfect for extended runs

**Comfortable use** - last run memory function / user-friendly interface for speed and time setting / short spin feature

Single Plate Magnetic Stirrer 1500 rpm

40

**Usage** - in laboratories, pharmacies and schools, mixing liquid industry

**Maximum speed** - from 15 to 1500 rpm with an interval of 50 rpm / Software driven gradual acceleration

**Time setting** - ranging from 1- 99 minutes / continuous operation feature

**Improved mixing** - pulse mode where the mixing direction changes every 30 seconds

**Maintenance free design** - water spill, corrosion and chemically resistant / includes no moving parts / high quality stirring bar

**User-friendly interface and design** - digital display showing the real-time speed and the remaining time / last run memory function / extremely thin (only 16.0 mm thick)/ flat surface enables easy wiping and cleaning

# Terms and conditions

## 1. General

All deliveries and services are based on the following Terms and Conditions. Deviating conditions issued by the buyer are not binding, even if they are not explicitly contradicted. The buyer accepts the General Terms and Conditions of the AHN Biotechnologie GmbH as legally binding by order placement or/and acceptance of the goods. In case of entrepreneurs, this also applies to pending and all further deliveries and services. The current issue of the General Terms and Conditions of the AHN Biotechnologie GmbH shall be valid as from 1 June 2017.

## 2. Offers and Orders

Prepared offers are always not binding. If the offer has been accepted by the orderer, the terms of sale shall be considered as accepted in their entirety. AHN Biotechnologie GmbH shall immediately respond to received offers. If the AHN Biotechnologie GmbH does not immediately oppose received offers, the offer will be seen as accepted. Therefore, deviating terms of sale and delivery issued by the orderer shall not be binding for the AHN Biotechnologie GmbH. Orders as well as any verbal side agreements require written confirmation. The exceptions to this are subsequently made verbal agreements. If within 24 hours after order confirmation the order needs to be not changed, this applies the order confirmation as bonded. In the case of non-compliance or cancellation of the order a net order value is immediately payable up to 25%.

## 3. Prices

The final calculation will be carried out on the basis of the prices applicable on the date of the delivery plus VAT. In this respect, the quotations, provided in the offer and the confirmation, are not binding. Price changes are allowed when more than four months are between the conclusion of the contract and the agreed date of delivery. In case, wages, material costs, or the market-related cost prices increase after that period and before the completion date of the delivery, the AHN Biotechnologie GmbH shall be entitled to reasonably increase the price owing to the increase in costs. The orderer is only entitled to withdraw when the increase of the price does not only insignificantly exceed the increase of the general living costs within the period of order and delivery. If the orderer is a businessman, a corporate body under public law, or a special fund under public law, the price changes will be possible according to the before mentioned regulations provided that more than six weeks are between the conclusion of the contract and the agreed date of delivery. The prices shall apply, unless otherwise agreed, ex-works, excluding freight, custom duties, insurance and packaging. In case of delivery values below 250.00 euros, a processing charge of 25.00 euros will be charged. If unexpected changes of the goods and/or of the incidental expenses of the goods occur after the acceptance of a contract that make the fulfilment of the contract unacceptable, the contract shall be adapted to the changed conditions. The contract adaptation and the Vendor's possibility of cancellation must be reasonable for the Buyer. If no agreement will be achieved thereby, the AHN Biotechnologie GmbH will be released from the contractual

obligation without the buyer's possibility to make compensation or liability claims. The exceptions to this are compensation or liability claims due to injury to life, body, or health with intent and gross fault.

## 4. Delivery and Shipment

The delivery is ex-works. In case of contracts and with deliveries to entrepreneurs, the goods are generally delivered on account and at the Buyer's risk. The Buyer also bears the risk if the freight is prepaid. If requested, we are willing to cover transport insurances only by invoicing the insurance rate and do not accept assume the obligation to obtain insurance. The AHN Biotechnologie GmbH is entitled to name itself as beneficiary. The vendor shall not be responsible for delays in delivery or services due to force majeure and due to events which considerably complicate the delivery or indeed render it impossible - this includes in particular strikes, lockouts, official directives etc. - also when these events occur at the sites of the vendor's suppliers or their subcontractors - even in case the vendor is bound by agreed terms and dates. They shall entitle the vendor to defer the deliveries or services for the period of hindrance plus an appropriate start-up time, and completely or in part, to withdraw from the contract due to unfulfilled terms of contract. The user will be entitled to withdraw if the performance is not available. The user explicitly undertakes to inform the contractual party immediately about the non-availability and to reimburse the counter-performance. Immediately after the completion or if the goods are ready for delivery, the orderer shall take over the goods. In case of default in taking delivery, the costs and the risk of storage shall pass to the orderer. The same applies to closing of railway lines and other transport possibilities that make the shipment impossible.

## 5. Date of delivery

The delivery time stated in the order confirmation is an approximate date and is determined under consideration of the known facts. If these facts change until the end of delivery period through no fault of our own, or other events which cannot be accounted for by us obstruct the delivery in due time, the delivery deadline will be extended reasonably. Delivery delays due to operating disruptions, regulatory actions or force majeure cause a reasonable extension of the delivery deadline. Force majeure is also to be understood to include industrial action including strikes and legitimate lockouts at the AHN Biotechnologie GmbH or our subcontractors' sites. In this case, our customers' right to claim for damages shall be excluded. With this, partial deliveries shall be eligible provided that the reasonable minimum quantity is not undercut.

## 6. Payment

The purchase price is payable net (for entrepreneurs) or gross (for consumers) on delivery of goods if not otherwise agreed. If the period of payment is exceeded, the AHN Biotechnologie GmbH shall be entitled to charge interest counted from the due date which refers to the value of the rate that we had to pay for the used bank loan, at least,

# Terms and conditions

however, of 5% above the current bank rate of the Deutschen Bundesbank and to refuse the further fulfilment of the contract. Expenses for debt recovery and reminding shall be on the buyer's account. With this, payments shall be paid directly. The buyer is not allowed to set off any payments, insofar not undisputed or legally effective claims, or counterclaims which are ready for a decision and counterclaims arising from the synallagmatic relation are affected.

## 7. Reservation of ownership

Until the full payment of the delivery and the regulation of all accounts payable from the business relation including interest, expenses as well as until the coverage of possible current account balance, AHN Biotechnologie GmbH reserves the property right for the delivered goods as well as in the commercial legal relations for the goods that have been manufactured using our goods. In this case, the goods will be reclaimed from the buyer without setting a final deadline or a letter of resignation if the Buyer does not meet its obligations despite of dunning notice. In the commercial legal relations, with this, the property includes the products that are produced by processing of the goods subject to retention of title or their mixtures to their full value. If the property right of third parties in the goods that are processed or mixed remains in force, we shall acquire co-property (§§ 947, 948 BGB) proportional to the invoice values of the goods to be processed. The buyer is obliged to keep the goods that are subject to retention of title safe and free of charge. As long as the buyer duly fulfils its liabilities against the AHN Biotechnologie GmbH, it shall be revocably entitled to have the goods that are subject to retention of title at its disposal in an ordinary business routine.

It shall not be authorized to pledging and assignment as security or other encumbrances. If the buyer is an entrepreneur, with this, it already assigns its claims from the resale of the goods owned or partially owned by the AHN Biotechnologie GmbH (§ 947 subparagraph 1, § 948 BGB) to the AHN Biotechnologie GmbH as a precaution. If the settlement of the claims is at risk, the buyer has to inform its customers about the assignment on request and has to pass all required information and documents to the AHN Biotechnologie GmbH. The buyer must immediately report about third parties' access to the goods that are subject to retention of title and assigned claims.

## 8. Notifications of defects, guarantee

The buyer is explicitly responsible for application, use, and processing of the ordered goods. In the commercial legal relations, the buyer is obliged to check the goods immediately when delivered and to confirm the delivery note. Is this examination neglected, it will not be possible to claim for defective goods or the delivery of goods which do not refer to the ordered goods afterwards. Complaints concerning obvious defects can only be considered when they are made within 5 days after the goods arrived at the place of destination. If the goods are sold per FOB, complaints shall be made in a timely manner so that the

shipment of obviously wrong or defective goods can be avoided. If the goods are sold per CIF- or C&F, the limitation period for filing a complaint will be 14 days after the arrival of the goods in the port of entry. A notice of defects does not release from the obligation to pay. In case the goods have been delivered on time and the suppliers have accepted the complaints, the orderer shall only be entitled for rescission of sale but not for price changes. The AHN Biotechnologie GmbH reserves the right to deliver replacement goods for the complained and returned goods. In case the subsequent delivery fails again, the buyer shall be entitled to have the legal rights to withdraw from the contract. The above-mentioned paragraphs finally include the warranty for the product and exclude other warranty claims of any kind. Complaints on latent/not obvious defects have to be brought to notice immediately after they have become recognizable, however, in commercial legal relations, this has to be within 6 months after the receipt of the goods and in case of contracts with consumers, this has to be within the statutory warranty period. Warranty services are only possible under the corresponding conditions of the individual suppliers.

## 9. Applicable law, place of jurisdiction, partial nullity

The Law of the Federal Republic of Germany shall be applicable for these terms of business and the entire legal relationship between the vendor and the buyer excluding the United Nations Convention on Contracts for the International Sale of Goods (CISG) as well as possible inter-governmental agreements. This also applies if the Buyer's place of business is abroad or the delivery shall be sent from or to abroad.

If the buyer is a merchant within the meaning of the Commercial Code, a legal entity under public law, or public/statutory special funds, the place of business of the AHN Biotechnologie GmbH shall be the exclusive place of jurisdiction for all disputes arising directly or indirectly from this contractual relation. Should any provision of these terms of business or a provision within the scope of any other agreements be or become ineffective, this shall not affect the validity of any other provisions or agreements.
